

Introducing **THE CHILDREN'S DRAWINGS** **رسومات الأطفال**

Waging Peace brings you this revised and updated book of drawings by child survivors of genocide and mass atrocities in Sudan. The drawings and photographs are evidence of the dignity and agency of children who have endured unspeakable horrors, from Darfur's genocide starting in 2003, to the near total destruction of Sudan in the war which started April 2023. These resilient, resourceful artists made it clear to us that they were survivors, not victims. This 84-page, full-colour, and stunningly designed hardback book, in English and Arabic throughout, tells their story. Please hear their voices, and bear witness.
